

Working in the Client Area

Purchasing an order

This is how the home page for WHMCS Client area looks. The Client area is the panel for the customers to manage their products.

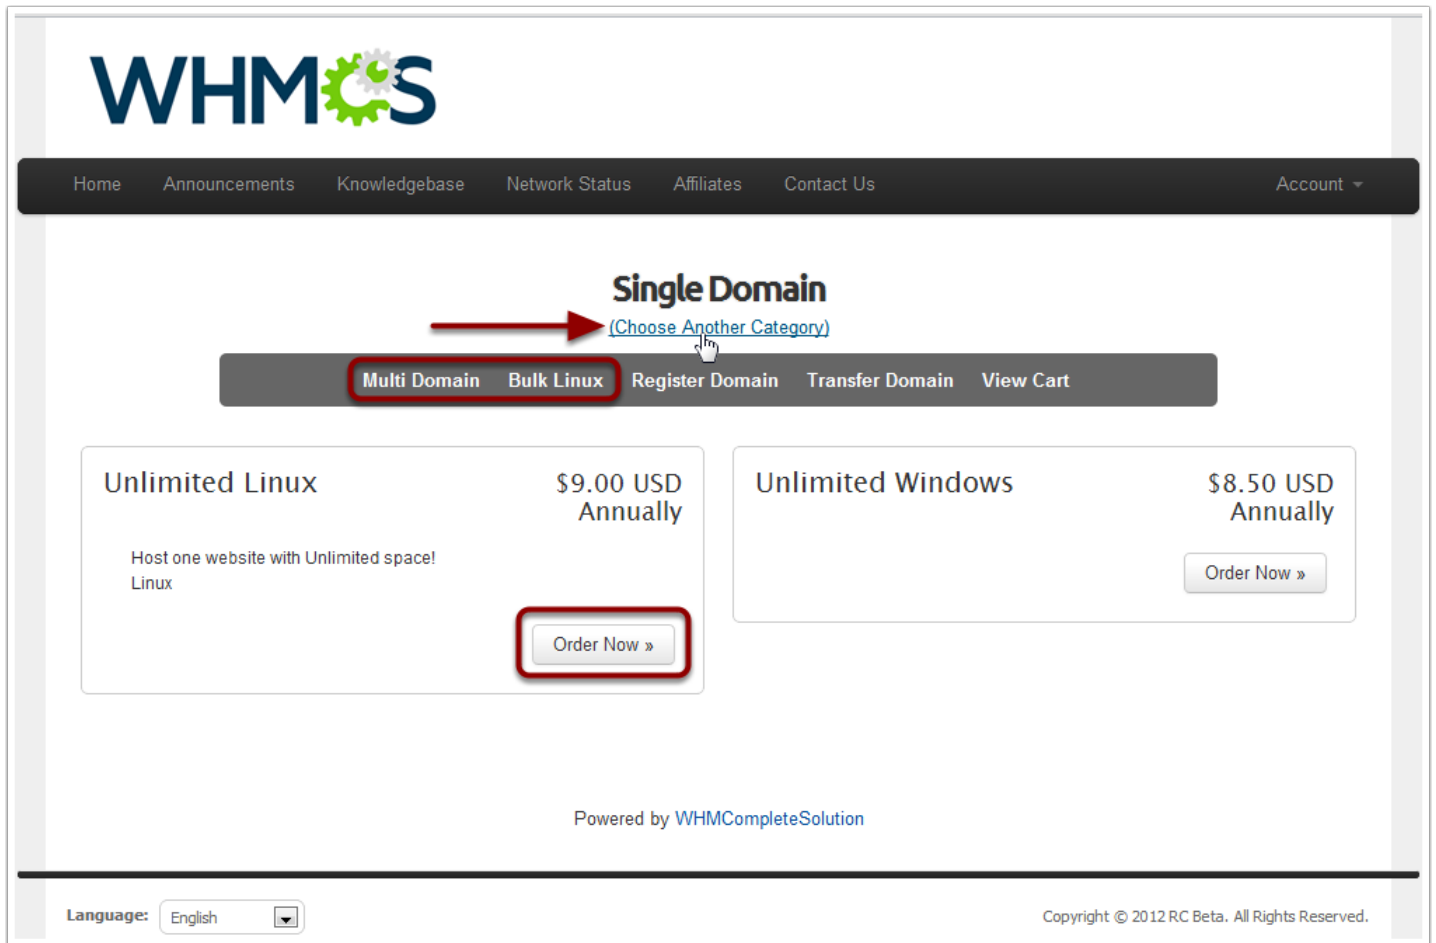

Note: In this documentation for ResellerClub's WHMCS hosting module, we will work only with the hosting orders.

The screenshot shows the WHMCS Client Area interface. At the top is the WHMCS logo. Below it is a navigation bar with links: Home, Announcements, Knowledgebase, Network Status, Affiliates, Contact Us, and Account (with a dropdown arrow). The main content area is titled "Choose a Domain..." and includes a text input field with the placeholder "eg. yourdomain.com". Below the input field is a CAPTCHA section with the text "Please enter the characters you see in the image below into the text box provided. This is required to prevent automated submissions." The CAPTCHA image shows the characters "ZP3ED" and a small input field. Below the CAPTCHA are three buttons: "Check Availability" (blue), "Transfer" (green), and "Order Hosting Only" (red, highlighted with a red border). At the bottom of the page, there are two sections: "Order New Services" with a "Go to Order Form »" button, and "Manage Your Account" with a "Secure Client Login »" button.

You can switch to a different product by selecting "Choose Another Category" as shown here.

Lets understand the purchase flow with an example of **Single Domain Linux** order.

The screenshot displays the WHMCS website interface. At the top, the WHMCS logo is visible. Below it, a navigation bar contains links: Home, Announcements, Knowledgebase, Network Status, Affiliates, Contact Us, and an Account dropdown. The main content area features a section titled "Single Domain" with a link "(Choose Another Category)" highlighted by a red arrow. Below this, a horizontal bar lists product categories: Multi Domain, Bulk Linux, Register Domain, Transfer Domain, and View Cart. The "Multi Domain" and "Bulk Linux" categories are highlighted with a red box. Below the categories, two product cards are shown. The first card, "Unlimited Linux", is priced at \$9.00 USD Annually and includes the text "Host one website with Unlimited space! Linux". Its "Order Now »" button is highlighted with a red box. The second card, "Unlimited Windows", is priced at \$8.50 USD Annually and has an "Order Now »" button. At the bottom of the page, it states "Powered by WHMCompleteSolution". The footer includes a language selector set to "English" and a copyright notice: "Copyright © 2012 RC Beta. All Rights Reserved."

The customer will see such confirmation message. However, the order will be activated or kept pending based on the Reseller's module settings preferences (as shown on Step:8 - Page 10 of "Official ResellerClub WHMCS Module.pdf")

Managing the order

To manage your order, simply go to Services > My Services. This will list down all the orders. To manage an order, click View Details.

Single Domain Hosting (Linux) - Order Management

You can access all the associated services (Web, Email, DNS and Webmail) and the credentials for the Primary FTP User, to connect via any FTP client.
