

Getting Started

With the Official ResellerClub **WHMCS** Modules

What is WHMCS?

WHMCS is an all-in-one client management, billing & support solution for online businesses.

Any business with a need for online billing, particularly services or membership of a recurring nature can use this solution.

This can operate as a stand-alone portal or can be integrated into an existing website.

Get seamless integration of **Payment Gateways, APIs, Domain Registrars**, etc.

Feature List

- Supports multiple Currencies and Languages
- Integrated Support System
- To-dos, Notes and Invoicing with PDF attachments
- Recurring Billing
- Social Media Integration
- Profit Calculator
- Plug-in Support
- Great Reporting Tools
- Send Quotations

Partnership Offerings ---

- MaxMind Fraud Protection Credits
- McAfee PCI Compliance Service
- Built-in support for PayPal & 2Checkout
- ResellerClub Domain Reseller Account
- Quantum Gateway
- DemoWolf Flash tutorials
- Tools for Developers

How WHMCS Works

Two Ways via which WHMCS can be associated with ResellerClub

1) Signup for a ResellerClub Account through WHMCS

- » It is a Free Account with no initial deposit
- » Domains can be registered/managed through WHMCS directly after configuring the ResellerClub Account within WHMCS
- » Applicable Pricing is the one offered by WHMCS

2) Signup for a direct ResellerClub Account

- » This is the regular Reseller signup via www.resellerclub.com
- » Such Resellers need to setup WHMCS on their hosting and need to integrate it with their ResellerClub account

Module Structure

Module Structure

The entire RC-WHMCS module has been divided into two as:

1) Addon module (with name *officialresellerclub*)

- This is where we authorize your Reseller ID and Password

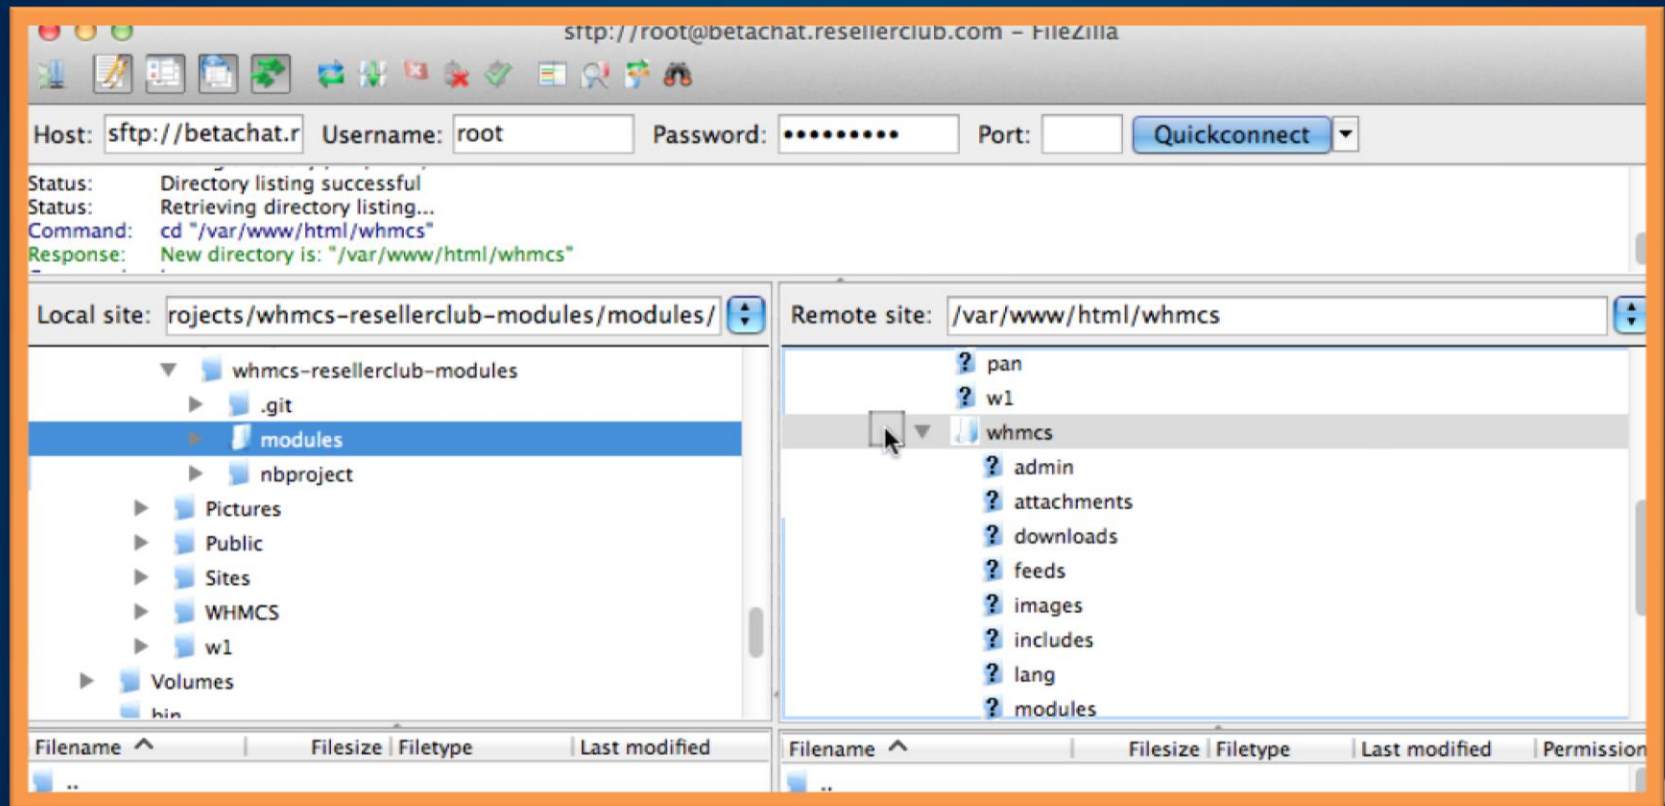

2) Provisioning modules (with names *resellerclubmdhosting*, *resellerclubsdhosting* and *resellerclubresellerhosting*)

- These are the modules for each Product Type in Orderbox
resellerclubmdhosting – Multi Domain Hosting
resellerclubsdhosting – Single Domain Hosting
resellerclubresellerhosting – Reseller Hosting

This granular-module split allows us to scale this entire module to accommodate all future products.

Installing the Official ResellerClub WHMCS Modules

Installation of the Module

Step I

Installation of the Module _____

The image shows the WHMCS login interface. At the top, the WHMCS logo is displayed with the tagline 'The Complete Billing & Support Solution'. Below the logo, a yellow box contains the text 'Welcome Back' and 'Please enter your login details below to authenticate.' The login form includes fields for 'Username' (containing 'admin') and 'Password' (masked with dots). There is a checkbox for 'Remember me until I logout.' and a 'Login' button. To the right of the 'Login' button is a 'Language:' dropdown menu set to 'Default'. At the bottom of the form, it shows 'IP Logged: 59.162.86.164' and 'Powered by WHMCS'.

The screenshot displays the WHMCS Client Area interface. At the top, the WHMCS logo is visible. Below it is a navigation bar with links: Home, Announcements, Knowledgebase, Network Status, Affiliates, Contact Us, and an Account dropdown menu. The main heading is "Multi Domain Hosting", which is highlighted with a red rectangle. Below this heading is a link "(Choose Another Category)". A horizontal menu contains five options: "Single Domain Hosting", "Reseller Hosting Domain", "Dedicated IP/SSL View Cart", "Register Domain", and "Transfer". Below this menu are two product cards. The first card is for "10-Windows" at "\$3.00 USD Quarterly", listing features: Plesk Panel, Host 10 Domains, 2GB Bandwidth/Month, and 99.9% Uptime, with an "Order Now »" button. The second card is for "Linux Pro Plan" at "\$3.00 USD Quarterly", listing features: Powerful Linux Hosting, Host Unlimited Domains, Unlimited Bandwidth, and 99.9% Uptime, also with an "Order Now »" button.

Client Area

The screenshot displays the WHMCS Client Area interface. At the top, the WHMCS logo is visible, followed by a navigation bar with links: Home, Services, Domains, Billing, Support, Open Ticket, and Affiliates. A user greeting 'Hello, [username]' is on the right. Below the navigation bar, the section 'My Products & Services' is titled, with a subtitle 'These are all the services you have registered in this account.' A search bar with the placeholder 'Enter Domain to Find' and a 'Filter' button is present. Below the search bar, it states '3 Records Found, Page 1 of 1'. A table lists the services with columns: Product/Service, Price, Billing Cycle, Next Due Date, and Status. The table contains three rows: 'Reseller Hosting - R1 Linux' (bulkhostinglinux.com, \$5.00 USD, Monthly, 31/08/2012, Active), 'Multi Domain Hosting - Linux Pro Plan' (multidomainlinux.com, \$3.00 USD, Quarterly, 31/10/2012, Active), and 'Single Domain Hosting - Unlimited Linux' (singledomainhosting.com, \$9.00 USD, Annually, 31/07/2013, Active). Each row has a 'View Details' button. The 'View Details' button for the 'Multi Domain Hosting - Linux Pro Plan' is highlighted with a red box. At the bottom, there are navigation links '← Prev Page' and 'Next Page →', and a pagination control showing '10'.

Frequently Asked Questions

FAQs

From where can I download the setup for this module?

You can download the latest version of these modules at our Selling Interfaces page at our website.

The product has been setup under WHMCS and I am able to purchase it from WHMCS, but I don't see any order from my ResellerClub account?

Pricing Type should be 'Recurring'

The product tenure set under Pricing from WHMCS should match the tenure slab under Orderbox.

If you don't have 6 months slab in your ResellerClub account, set the Semi-Annually pricing under WHMCS as '-1'

How to Renew the order?

There is no explicit renewal button. However, when an order is due for renewal, WHMCS creates an invoice and notifies the customer.

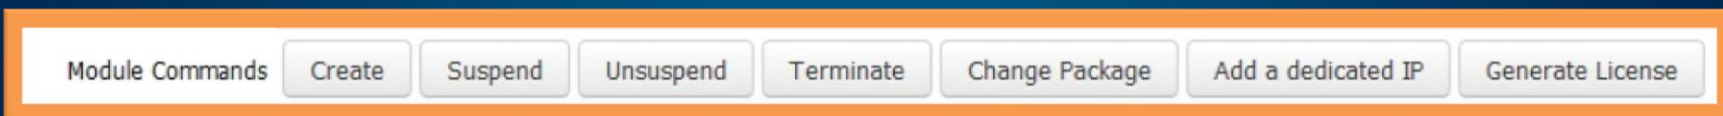

Upon payment, the system renews the order.

FAQs

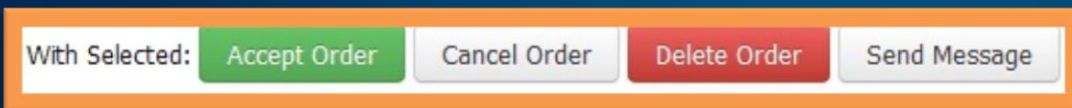

How do I delete an order?

Deleting an order will be a two step process:

① The order first needs to be **Terminated**. There are special **Module Commands** which communicate with **Orderbox** through **WHMCS**. These commands are available **ONLY** in the WHMCS Admin Area and are specifically built for this module.

② You then delete the order from **WHMCS** using that platform's generic Delete Order button. This can be found on the List Orders page.

FAQs

How to provision Dedicated IP address for the hosting orders?

This is still under development and will be available in the next release of this module. It will be first made available ONLY for the Reseller Hosting products.

Can I setup Email-Only Hosting?

The module currently doesn't support Email Only hosting.

What is 'Recurring' Payment Type?

Payment Types gives you the flexibility to bill clients in different manner for different products. The Recurring type of payment lets you set different billing cycles, just as the billing cycle works in Orderbox for every product.
