

Getting Started

With the Official ResellerClub **WHMCS** Modules

What is WHMCS?

WHMCS is an all-in-one client management, billing & support solution for online businesses.

Any business with a need for online billing, particularly services or membership of a recurring nature can use this solution.

This can operate as a stand-alone portal or can be integrated into an existing website.

Get seamless integration of **Payment Gateways, APIs, Domain Registrars**, etc.

Feature List

- Supports multiple Currencies and Languages
- Integrated Support System
- To-dos, Notes and Invoicing with PDF attachments
- Recurring Billing
- Social Media Integration
- Profit Calculator
- Plug-in Support
- Great Reporting Tools
- Send Quotations

Partnership Offerings

- MaxMind Fraud Protection Credits
- McAfee PCI Compliance Service
- Built-in support for PayPal & 2CheckOut
- ResellerClub Domain Reseller Account
- Quantum Gateway
- DemoWolf Flash tutorials
- Tools for Developers

How WHMCS Works ---

Two Ways via which WHMCS can be associated with ResellerClub

1) Signup for a ResellerClub Account through WHMCS

- » It is a Free Account with no initial deposit
- » Domains can be registered/managed through WHMCS directly after configuring the ResellerClub Account within WHMCS
- » Applicable Pricing is the one offered by WHMCS

2) Signup for a direct ResellerClub Account

- » This is the regular Reseller signup via www.resellerclub.com
- » Such Resellers need to setup WHMCS on their hosting and need to integrate it with their ResellerClub account

Module Structure

Module Structure

The entire RC-WHMCS module has been divided into two as:

1) Addon module (with name *officialresellerclub*)

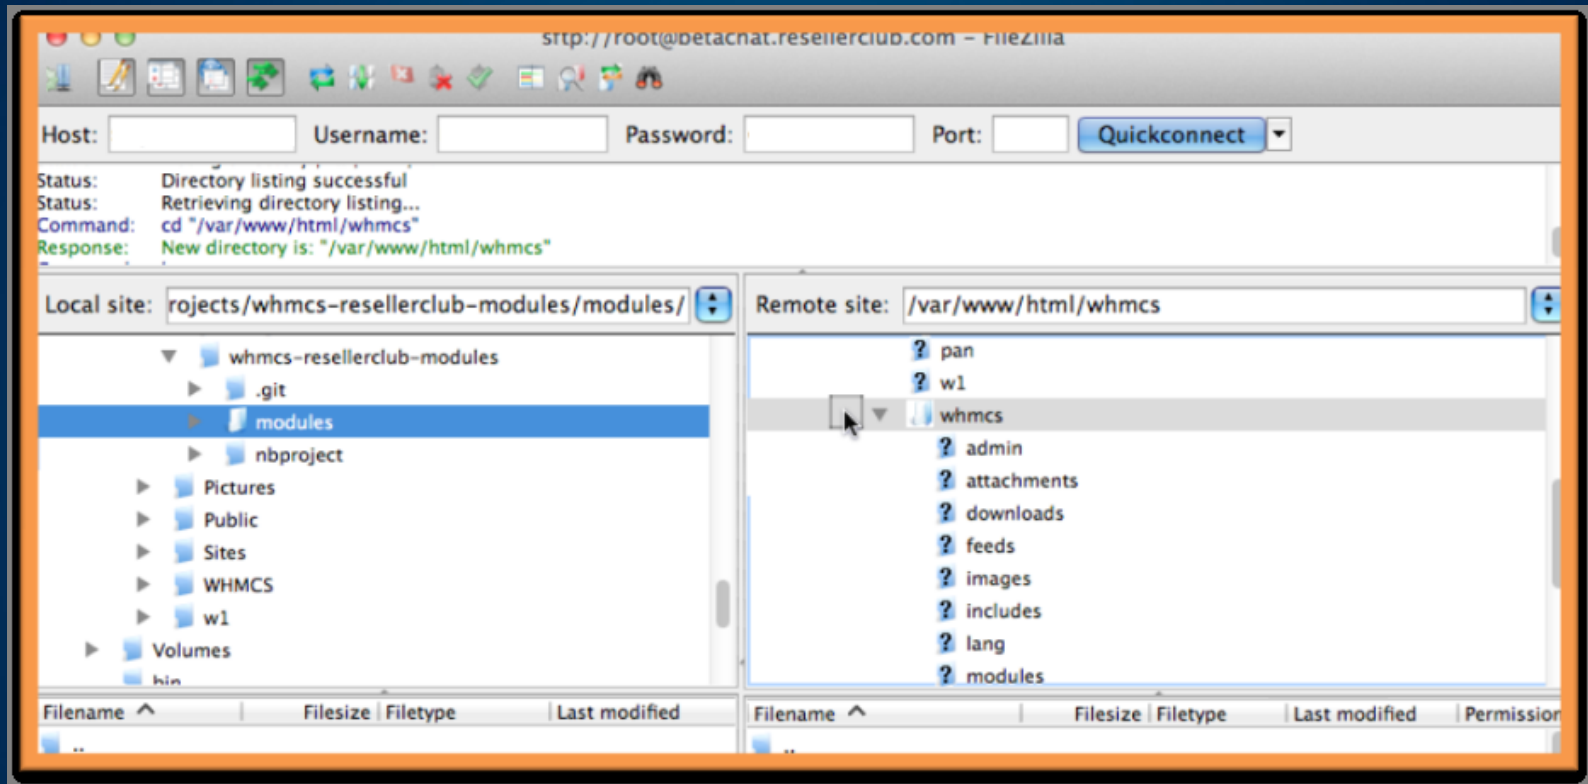

- This is where we authorize your Reseller ID and Password

2) Provisioning modules

- Resellerclubmdhostingin
- Resellerclubmdhostinguk
- resellerclubmdhostingus
- resellerclubresellerhostingin
- resellerclubresellerhostinguk
- resellerclubresellerhostingus
- resellerclubsdhostingin
- resellerclubsdhostinguk
- resellerclubsdhostingus
- resellerclubwebservices

Installing the Official ResellerClub WHMCS Modules

Installation of the Module

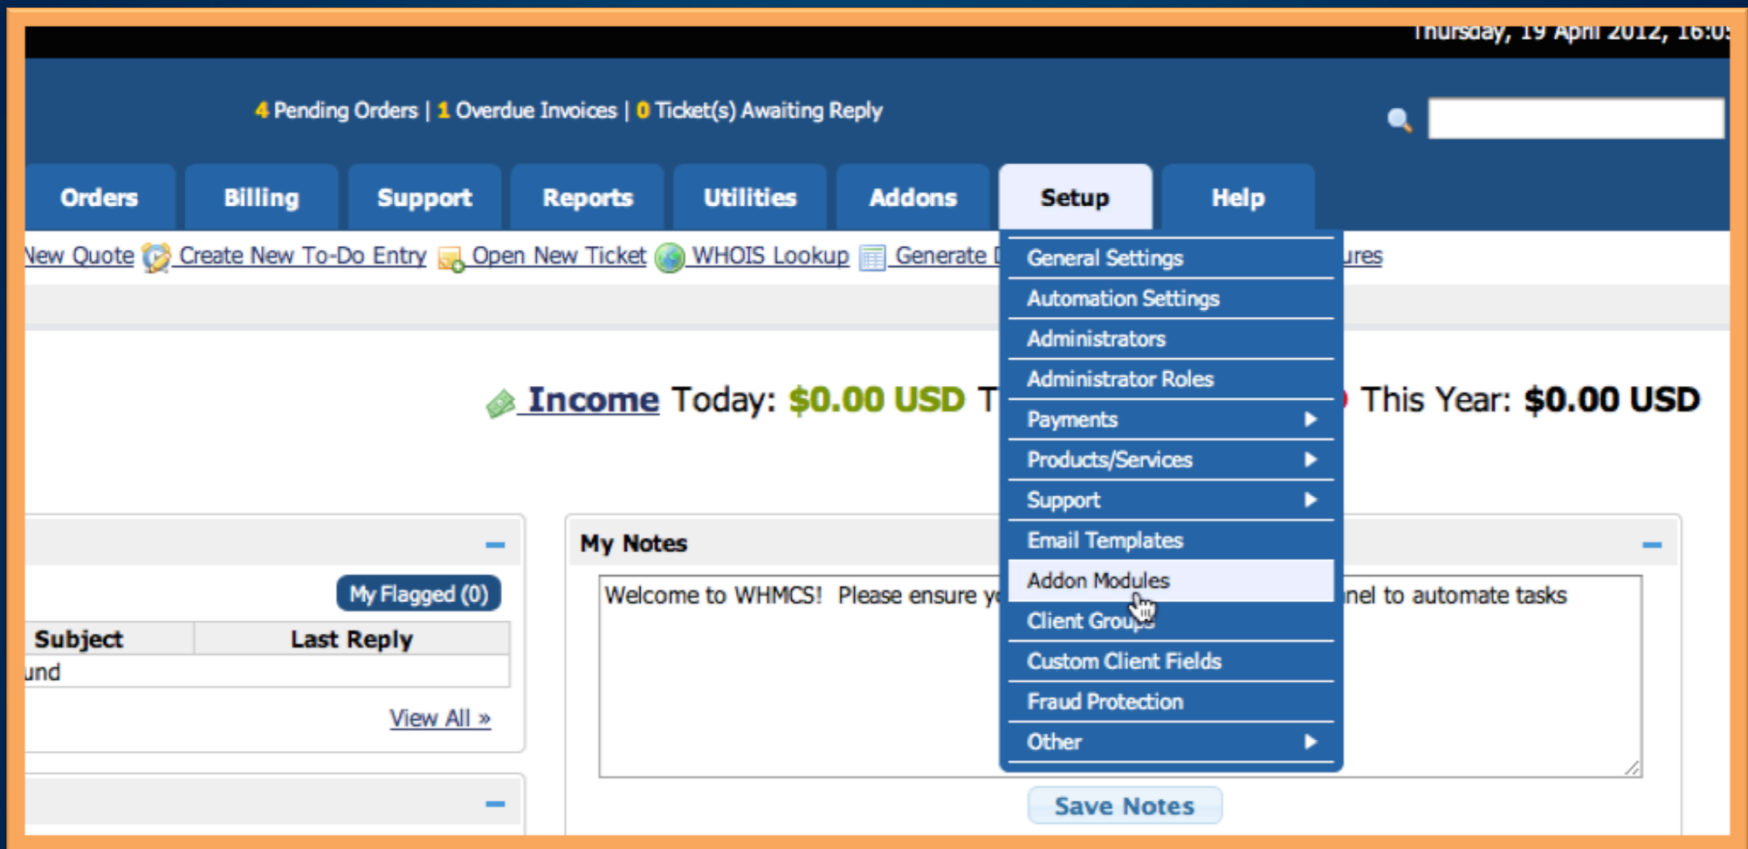

Step I

Installation of the Module =====

The image shows the WHMCS login page. At the top, the WHMCS logo is displayed with the tagline 'The Complete Billing & Support Solution'. Below this, a yellow box contains the text 'Welcome Back' and 'Please enter your login details below to authenticate.' The login form includes a 'Username' field with 'admin' entered, a 'Password' field with masked characters, a 'Remember me until I logout.' checkbox, a 'Login' button, and a 'Language: Default' dropdown menu. At the bottom, it shows 'IP Logged: 59.162.86.164' and 'Powered by WHMCS'.

Step VI

Setting Up a Hosting Product

Setting Up Products

Step 1

Setting Up Products

The screenshot shows the 'Create Group' form in the WHMOS interface. The form includes a 'Product Group Name' text input field, an 'Available Payment Gateways' section with a dropdown menu, and a 'Hidden' checkbox. A 'Create Group' button is located at the bottom right of the form. The top navigation bar includes links for Clients, Orders, Billing, Support, Reports, Utilities, Addons, and Setup. The top status bar shows '1 Pending Orders | 2 Overdue Invoices | 0 Ticket(s) Awaiting Reply'.

Step II

The screenshot shows the 'Products/Services' table in the WHMOS interface. The table has columns for Product Name, Type, Sort Order, Pay Type, and Stock. Two product groups are listed: 'Group Name: Shared Hosting' and 'Group Name: Multi Domain Hosting'. Both groups show 'No Products Setup in this Group'. A red box highlights the first two columns of the table.

Product Name	Type	Sort Order	Pay Type	Stock
Group Name: Shared Hosting				
		No Products Setup in this Group		
Group Name: Multi Domain Hosting				
		No Products Setup in this Group		

Setting Up Products

The screenshot shows the WHMOS interface with the 'Products/Services' section selected. The top navigation bar includes links for Clients, Orders, Billing, Support, Reports, Utilities, Addons, and Settings. Below the navigation bar, there are shortcuts for General Settings, Products/Services, Servers, Email Templates, Administrators, Administrator Roles, Addon Modules, and Currencies. The main content area is titled 'Products/Services' and contains a description: 'This is where you configure all your products and services. Each product must be assigned to a group which can either be visible or hidden from the order page (if a product is in a hidden group it can still be ordered using the Direct Order Link shown when editing the package).' Below the description, there are options: 'Create a New Group', 'Create a New Product' (highlighted with a red box), and 'Duplicate Product'. A table below shows two product groups: 'Shared Hosting' and 'Multi Domain Hosting', both with 'No Products Setup in this Group'.

Step III

The screenshot shows the 'Add New Product' form in the WHMOS interface. The form has three input fields: 'Product Type' set to 'Hosting Account', 'Product Group' set to 'Multi Domain Hosting', and 'Product Name' set to 'Linux Pro Plan'. A 'Continue >>' button is at the bottom right of the form.

Client Area

The screenshot displays the WHMCS Client Area interface. At the top, the WHMCS logo is visible. Below it is a navigation bar with links: Home, Announcements, Knowledgebase, Network Status, Affiliates, Contact Us, and an Account dropdown menu. The main heading is "Multi Domain Hosting", which is highlighted with a red box and includes a link "(Choose Another Category)". Below this heading is a horizontal menu with five options: "Single Domain Hosting", "Reseller Hosting Domain", "Dedicated IP/SSL View Cart", "Register Domain", and "Transfer". The page features two product cards. The first card, "10-Windows", lists features: Plesk Panel, Host 10 Domains, 2GB Bandwidth/Month, and 99.9% Uptime, with a price of \$3.00 USD Quarterly and an "Order Now »" button. The second card, "Linux Pro Plan", lists features: Powerful Linux Hosting, Host Unlimited Domains, Unlimited Bandwidth, and 99.9% Uptime, with a price of \$3.00 USD Quarterly and an "Order Now »" button.

Client Area

The screenshot displays the WHMCS Client Area interface. At the top, the WHMCS logo is visible, followed by a navigation bar with links: Home, Services, Domains, Billing, Support, Open Ticket, and Affiliates. A user greeting "Hello, [username]" is on the right. The main heading is "My Products & Services" with a subtitle "These are all the services you have registered in this account." Below this, it states "3 Records Found, Page 1 of 1". A search bar with the placeholder "Enter Domain to Find" and a "Filter" button is present. The services are listed in a table with columns: Product/Service, Price, Billing Cycle, Next Due Date, and Status. Three services are listed: "Reseller Hosting - R1 Linux" (bulkhostinglinux.com, \$5.00 USD, Monthly, 31/08/2012, Active), "Multi Domain Hosting - Linux Pro Plan" (multidomainlinux.com, \$3.00 USD, Quarterly, 31/10/2012, Active), and "Single Domain Hosting - Unlimited Linux" (singledomainhosting.com, \$9.00 USD, Annually, 31/07/2013, Active). Each service has a "View Details" button. The "View Details" button for the "Multi Domain Hosting - Linux Pro Plan" service is highlighted with a red rectangle. At the bottom, there are navigation links "← Prev Page" and "Next Page →", and a page number "10" with a dropdown arrow.

Frequently Asked Questions

FAQs

From where can I download the setup for this module?

You can download the latest version of these modules at our Selling Interfaces page at our website.

The product has been setup under WHMCS and I am able to purchase it from WHMCS, but I don't see any order from my ResellerClub account?

Pricing Type should be 'Recurring'

The product tenure set under Pricing from WHMCS should match the tenure slab under Orderbox.

If you don't have 6 months slab in your ResellerClub account, set the Semi-Annually pricing under WHMCS as '-1'

How to Renew the order?

There is no explicit renewal button. However, when an order is due for renewal, WHMCS creates an invoice and notifies the customer.

Upon payment, the system renews the order.

FAQs

How do I delete an order?

Deleting an order will be a two step process:

① The order first needs to be **Terminated**. There are special **Module Commands** which communicate with **Orderbox** through **WHMCS**. These commands are available **ONLY** in the WHMCS Admin Area and are specifically built for this module.

② You then delete the order from **WHMCS** using that platform's generic Delete Order button. This can be found on the List Orders page.

FAQs

How to provision Dedicated IP address for the hosting orders?

This is still under development and will be available in the next release of this module. It will be first made available ONLY for the Reseller Hosting products.

Can I setup Email-Only Hosting?

The module currently doesn't support Email Only hosting.

What is 'Recurring' Payment Type?

Payment Types gives you the flexibility to bill clients in different manner for different products. The Recurring type of payment lets you set different billing cycles, just as the billing cycle works in Orderbox for every product.
